## Contract with Banedanmark in Denmark

**Client:**  
Banedanmark  
**Country:**  
Denmark  
**Servicearea:**  
Rail testing

# banedanmark

### Description

**For many years now Eurailscout is a reliable partner of Banedanmark measuring Track geometry, Overhead line, Ultrasonic testing and Eddy current testing on a contractual basis.**

In 2011 there was a gap, because Eurailscout lost the contract to a cheaper bidder. But because of dissatisfaction with

their new supplier, Banedanmark decided to publish a new tender, which brought Eurailscout back into the game.

Recently Banedanmark decided to extend the contract for Track geometry measurement and Overheadline measurement with Eurailscout until end of 2017.

For Ultrasonic testing and Eddy current testing both parties signed a contract from 2014 until end of 2016.

## Ultrasonic testing

- Client: Banedanmark
- Country: Denmark
- Period: 2014 - 2016
- Services: Ultrasonic testing and Eddy current testing
- Contract volume: 1800km per year (annual measurement campaign consist of 10 shifts)
- Test equipment: UST02

## Track & OHL

- Client: Banedanmark
- Country: Denmark
- Period: 2013 - 2017
- Services: Track geometry measurement and Overhead line measurement
- Contract volume: 10.000km for Track geometry and 2500 km for Overhead line (6 campaigns per year)
- Test equipment: UFM120, SIM09 (for track geometry)
