EURAILSCOUT NEWS

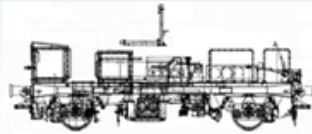

SIM11 in Paris!

The SIM 11 starts operation in France in November 2014. The operation is around Paris, in the regions north of Paris and southeast of Paris.

This SIM will operate full time in 2015 in France.

The SIM12 is finished!

Eurailsout finished the build of the new SIM12 and the first test runs were successful!

The UFM120: Renewal in New Year!

Our experts make the UFM 120 fit for the most difficult challenges.

At this moment the big 'RS' revision for the UFM120 is taking place. Big engine checkup and rewiring of the measurement systems and much more.

Until end of February the UFM120 will have some new systems too. This all to comply to our high standards for the years to come.
